

2024 ANNUAL REPORT

TRINITY ANIMAL SHELTER AUXILIARY

In 2024 TASA celebrated it's 30 year anniversary. It was a year of growth and progress for TASA. We assisted financially in spaying and neutering more animals than ever before. We funded some extensive medical treatments of shelter animals. The TNR program flourished and grew. Our little nonprofit was thriving and we were happy and proud of our accomplishments.... But in July we received dreadful news from the county; the Adoption Program at our Trinity County Animal Shelter (TCAS) was threatened with closure due to drastic budget cuts. We were devastated. TASA knew that without an adoption program at the shelter, there would be no second chance for the dogs and cats brought there.

TASA and TCAS have worked hard to accomplish a plan to save the adoption program. Through a volunteer program and generous donations from our amazing community, it seems the shelter's adoption program lives on! We are so thankful to all that volunteer and all that donate. Please, continue with your generosity. We can not do this without you!

TASA Funds Medical Care of Shelter Animals

Paintbrush

Found at the roadside, drastically underweight with multiple injuries. TASA funded his surgeries.

Mia

One of two dogs at TCAS for whom TASA supplied funds for heartworm treatment
